

A3

Audi A3 Cabriolet

Vorsprung durch Technik **Audi** 

Must-have.

The Audi A3 Cabriolet.

04 // 09

Design

Dazzling.

The new A3 Cabriolet makes a sunset into a feast for the eyes. Because you pay more attention to the car than you do to the sun. To take a look, turn to page 4.

14 // 17

Engine

Ready, steady, go!

The hood can be opened in no time at all to listen to the wind. But what's even better to listen to is the sound of a pure-bred engine. And the joyful laughter of your passenger when you accelerate. To read all about what it feels like, turn to page 14.

The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

10 // 13

Hood

All good things come in threes. And at minus three too.

Real cabriolet enthusiasts drive with the top down. All the time. But to see why the hood of the new A3 Cabriolet is still worth a look, turn to page 10.

18 // 23

Interior

Plenty for four.

Space to enjoy, space for storage, space for four people and the best journey ever. To see the inner qualities of the A3 Cabriolet, turn to page 18.

28 // 29

Driving pleasure

Good entertainment.

The Audi A3 Cabriolet has practically everything. Except boredom. To find out why a journey in the A3 Cabriolet makes so much fun, turn to page 28.

24 // 27

Safety

Awesome strength.

The high-strength passenger cell makes your journey a really safe one. And the roll-over bars set a visually powerful accent. To see what other features the A3 Cabriolet has to keep you safe, turn to page 24.

The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

Summer, sun, sand and sea.
And yet we would rather be in the car.

*The Audi A3 Cabriolet**. A thrilling sight. Sporty lines, an attractive headlamp design and the distinctive Audi Singleframe. Just drink it all in.

*The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

Looking good for you.

The design in detail.

01 Making night into day. The optional **xenon plus** headlights are available if required with the adaptive light cornering light function for illuminating corners before you enter them. The LED daytime running lights feature seven long-life lamps. The headlights have been moved as far outwards as possible to give the A3 Cabriolet¹ a broader, sportier look.

02 Protect me. **Setting an attractive accent** are the roll-over bars made from super-high strength steel tubes. They are coloured black as standard; as part of the aluminium exterior finish, the rear of the bars features an aluminium-look. Also adding a gleaming touch are the window capping strips and the door handle trim strips.

03 Two in one. **The exterior mirrors** add a distinctive touch to the sides of the vehicle with a striking dynamic line. The integral LED indicators enhance your safety too – as well as that of other road users.

04 It couldn't be easier. **Say goodbye to irksome parking:** the optional park assistance systems uses ultrasonic sensors to find suitable parking spaces along the roadside and will even park the car automatically. All you have to do is accelerate or brake.

05 Clear statement. **The Audi A3 Cabriolet¹** is a full-size four-seater car with sporty, compact dimensions. As soon as you set eyes on the sparkling Audi Singleframe one thing becomes very clear: this is a car in which you can have some serious fun.

06 Driving fun packed into 17 inches. **Eyecatchers in motion:** the cast aluminium wheels of the Ambition trim line².

07 Four colours fun. **Whether Black, Red, Blue or Beige,** the authentic soft-top leaves you plenty of space inside and looks extremely stylish from outside.

08 Illuminating. **The broad two-part rear lights** accentuate the car's tail end. LED technology creates a homogeneous light that is also very distinctive, the attractive light rods creating an all-round band of light.

09 In the lee of the wind. **Reduce draughts** in the interior with the wind deflector³. Fastened in no time at all from one side of the vehicle, it could scarcely be easier.

¹ The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

² More information on the Ambition and Attraction trim lines can be found on page 51.

³ Standard on the Ambition trim line, otherwise optional.

Minus three degrees in the sun.

And yet we are driving with the top down.

An integral whole. When closed, the classic fabric hood reinforces the A3 Cabriolet's* coupé-like persona. It blends fully into the vehicle's lines and provides excellent noise and heat insulation.

Smart apparel. Thanks to the intelligent concertina folding action, no tonneau cover is required.

Only the sky is the limit. The fully-automatic acoustic hood can be opened in nine seconds and closed in eleven – even during a journey. And all very conveniently at the press of a button. The fully-automatic acoustic hood ensures your journey in the passenger compartment is always a quiet one and also provides excellent heat insulation.

*The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

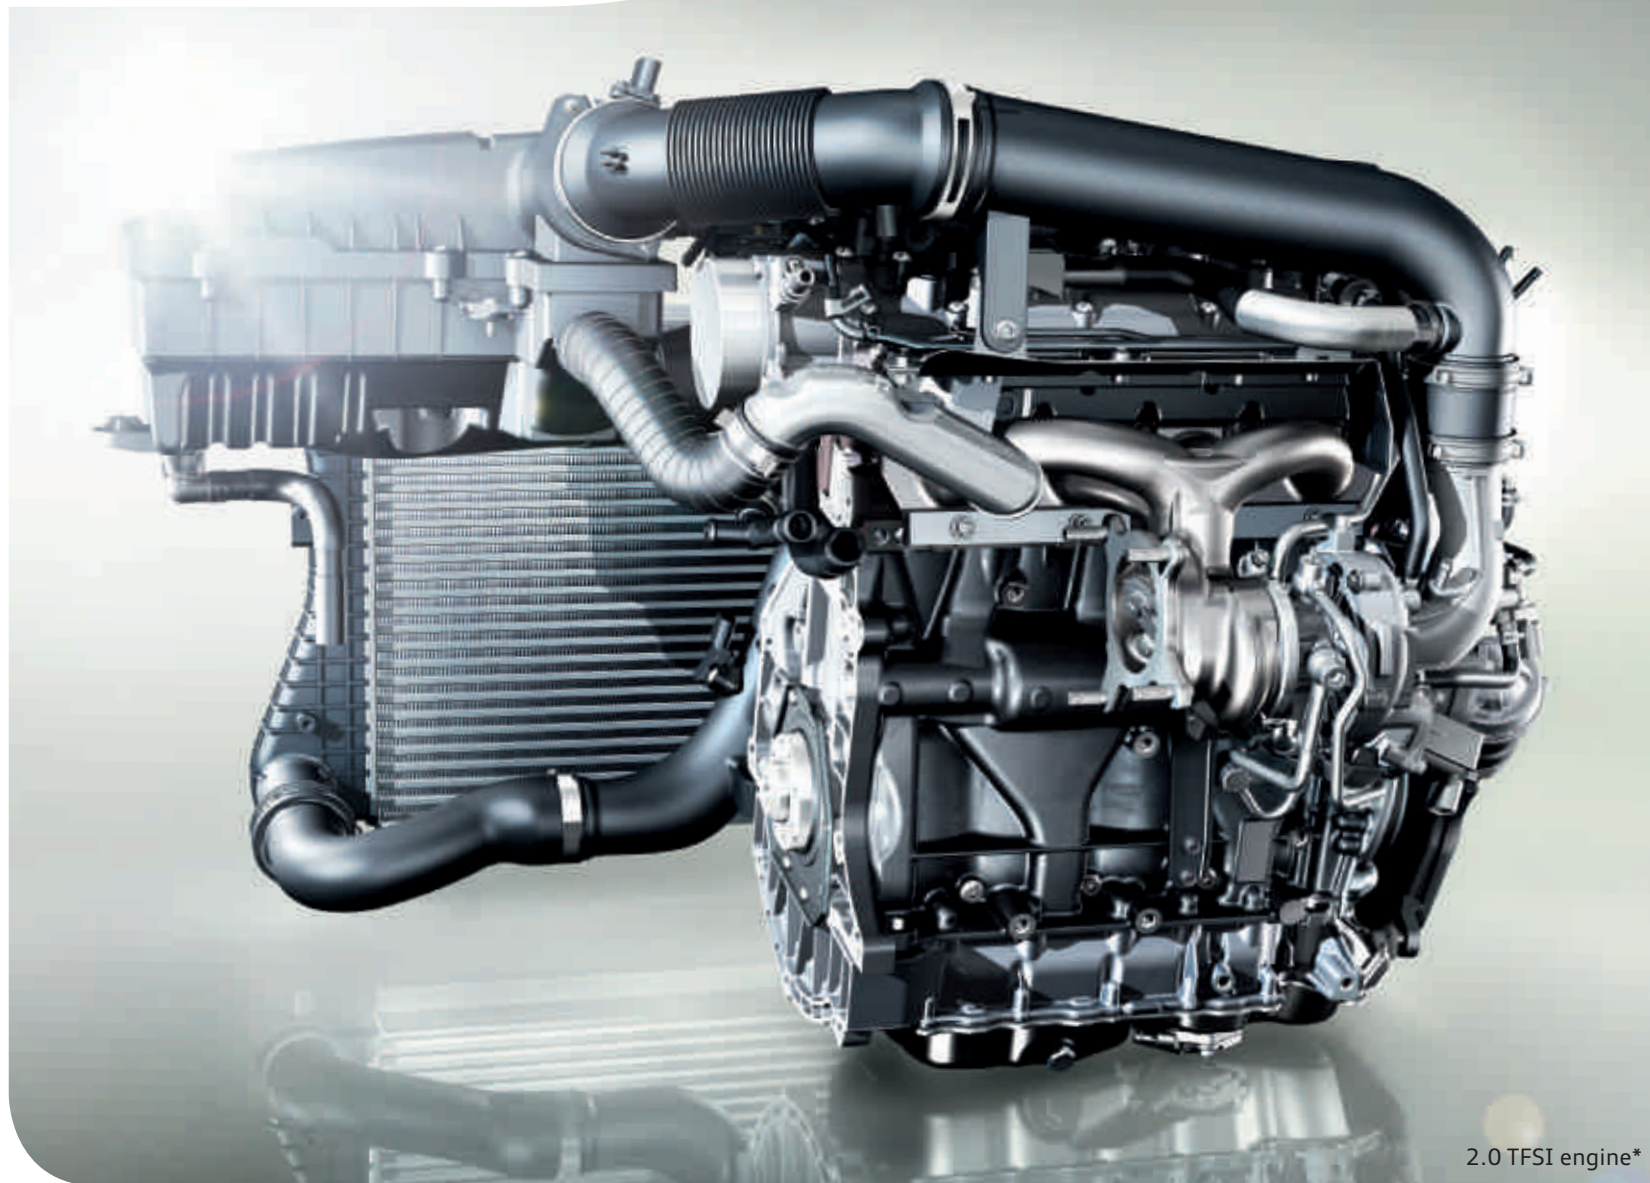

Close friends, great fun.

And yet still room for 147 kW*.

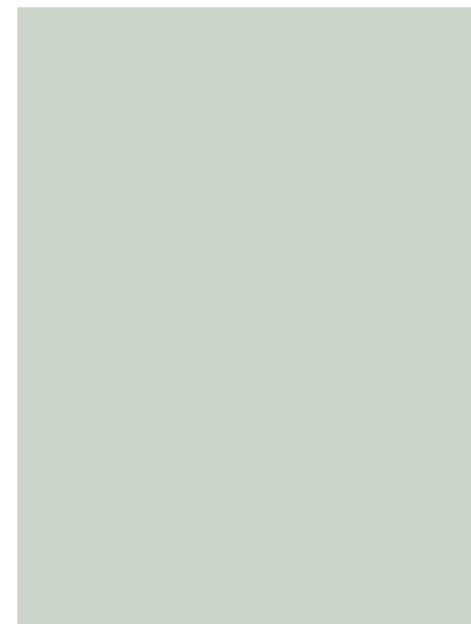

* 2.0 TFSI engine. The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

2.0 TFSI engine*

①

01 The way is the goal. Intelligent TFSI® technology is also available for the A3 Cabriolet; it combines the advantages of economical, efficient FSI® technology with those of a turbocharger. That means more pulling power, less fuel consumption. The 1.8 TFSI engine*, with a power output of 118 kW, will accelerate you from 0 to 100 km/h in just 8.2 seconds (8 seconds in the case of the 7-speed S tronic version), whilst the 2.0 TFSI engine* with 147 kW, in combination with the 6-speed S tronic dual-clutch gearbox, performs the same task in a mere 7.3 seconds. And with maximum torques of 250 Nm and 280 Nm respectively, a sporty drive is par for the course.

02 Economy spin. The two TDI engines used in the A3 Cabriolet are not only fuel-efficient; they also bring a perceptible agility and spontaneity to the ride. The 1.6 TDI engine*, with a power output of 77 kW, consumes on average just 4.3 litres of fuel per 100 kilometres of driving pleasure. With its 2.0 TDI engine, Audi has become one of the first manufacturers to combine the intelligent start/stop system with the sporty S tronic to produce an efficient, dynamic ride. State-of-the-art common rail diesel technology and the optimisation of certain components ensure that the engine runs quietly and smoothly – though it may still set your pulse racing.

03 From 0 to 1,800. The latest-generation piezo injectors inject the fuel at a pressure of 1,800 bar into the combustion chamber of the 2.0 TDI engine*. There, it is burned efficiently and as cleanly as possible.

Under the bonnet. The engines in detail.

04 Two is better than one. The optional S tronic enables you to change gear even more swiftly. With the dual-clutch gearbox, the next gear is already engaged before you select it. As a result, S tronic changes gear without any perceptible interruption in power flow.

*The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

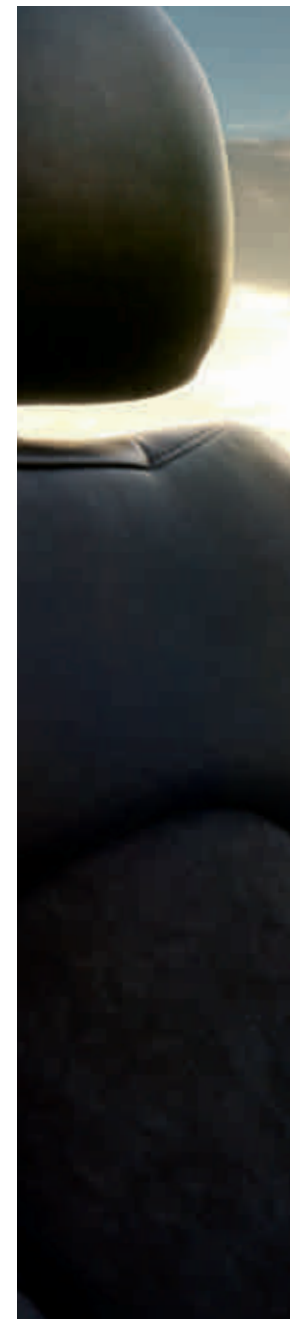

Space to the rear, space to the front, space above.
And yet not one centimetre is wasted.

Just as attractive inside as out. Lots of space and a clearly laid-out cockpit await you.

We have thought of everything.

The design in detail.

01 There in black-and-white. The instrument cluster with driver information system¹ features brilliant white displays on black dials.

02 Freedom for free time. The A3 Cabriolet² offers more space than you might think. The rear bench seat can be folded 50:50 or completely. Another practical touch is the front passenger seat whose backrest can be folded back to create a virtually flat surface, thereby enabling long objects to be loaded into the car.

03 Now. And hurry. The optional navigation system plus fits harmoniously into the centre console switch panel. Its high-resolution colour display will conveniently show you the shortest way home. Although you'd probably love to take a detour.

04 Resolution: do more sport! The multifunction leather sports steering wheel in **3-spoke design**³ is flattened at the bottom and comes with shift paddles if required. And with its aluminium-look inserts, it cuts a very athletic figure.

05 Sun at the press of a button. Anyone opting for the **acoustic hood** can open it fully automatically in nine seconds – with just one press of the hood-opener button in the interior. The hood can be activated up to a vehicle speed of 30 km/h.

06 Quick change. With **S tronic**⁴, gearshifting is done in fractions of a second and is barely perceptible. Not only does S tronic ensure you make swift progress, it also adds a dynamic accent to the interior.

07 Fantastic atmosphere. One press of the button and the summer heat melts away. The air conditioning system is operated intuitively enabling straightforward adjustment to your desired temperature.

08 Take your seats! Four full-size seats invite you for a drive. The seats are covered in high-quality fabrics or, if desired, with elegant leather or a combination of Alcantara and leather. If you wish, you can seat at the front in specially-designed sports seats.

09 Everything to hand. The **3-spoke sports leather steering wheel**, standard on the Ambition trim line, features elegant aluminium-look inserts.

10 A symphony for the road. The **BOSE Sound System** gives you a very special sound experience. If you wish, you can listen to your favourite music from eight loudspeakers producing a total output of 222 watts. One subwoofer, two tweeters, one centre speaker and one 74 watt external DSP complete the rich sound experience – turning every journey into a concert performance.

11 Rounding things off nicely. The **stylish air vents** bring to mind a sports car.

12 Trio in harmony. The **door opener, door handle and armrest** form one visual unit and blend in perfectly with the high-quality, sporty interior design.

¹ Standard on the Ambition trim line, otherwise optional.

² The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

³ Optional for Ambition.

⁴ Hill start assist is standard with S tronic.

Potholes, ruts, cobbles.

And yet it is still a safe drive.

*The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

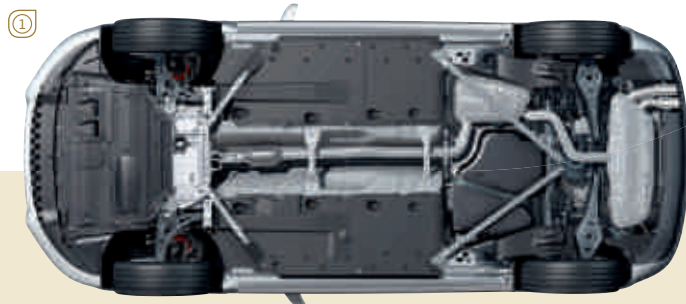

A sporty drive – but a safe one too.

The A3 Cabriolet* is equipped with a mass of safety features such as roll-over bars, airbags and an extremely sturdy body.

01 Drive how you want to. A standard feature of the Audi A3

Cabriolet¹: is the dynamic suspension. The independent wheel suspension enables longitudinal and lateral forces to be absorbed separately. The result is greater directional stability and increased lateral rigidity. The sports suspension is standard with the Ambition² trim line. It lowers the ride height by 15 mm and provides a sporty ride combined with a high level of comfort.

02 We take safety very seriously. That is why special reinforcements have been added to the A3 Cabriolet¹ to produce a very sturdy body. A high proportion of high-strength and super-high-strength steels makes the vehicle compact, without compromising on driving pleasure. And not only do the roll-over bars look good, they also offer even better protection.

03 Good humoured and well protected. The A3 Cabriolet¹ features full-size airbags³ for the driver and front passenger. The side impact protection system consists of super-high-strength door impact bars, head/thorax side airbags³ and protective side padding. The integral head restraint system restrains the upper body, thanks to the specially-shaped seat, and provides additional support for the head. Three-point seat belts, complete with belt tensioners and belt force limiters in the front, round off the safety features of the A3 Cabriolet¹.

¹ The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

² The Ambition trim line is also available with the standard suspension.

³ The image is an illustration, not a real representation and it is intended to show what happens when an airbag deploys.

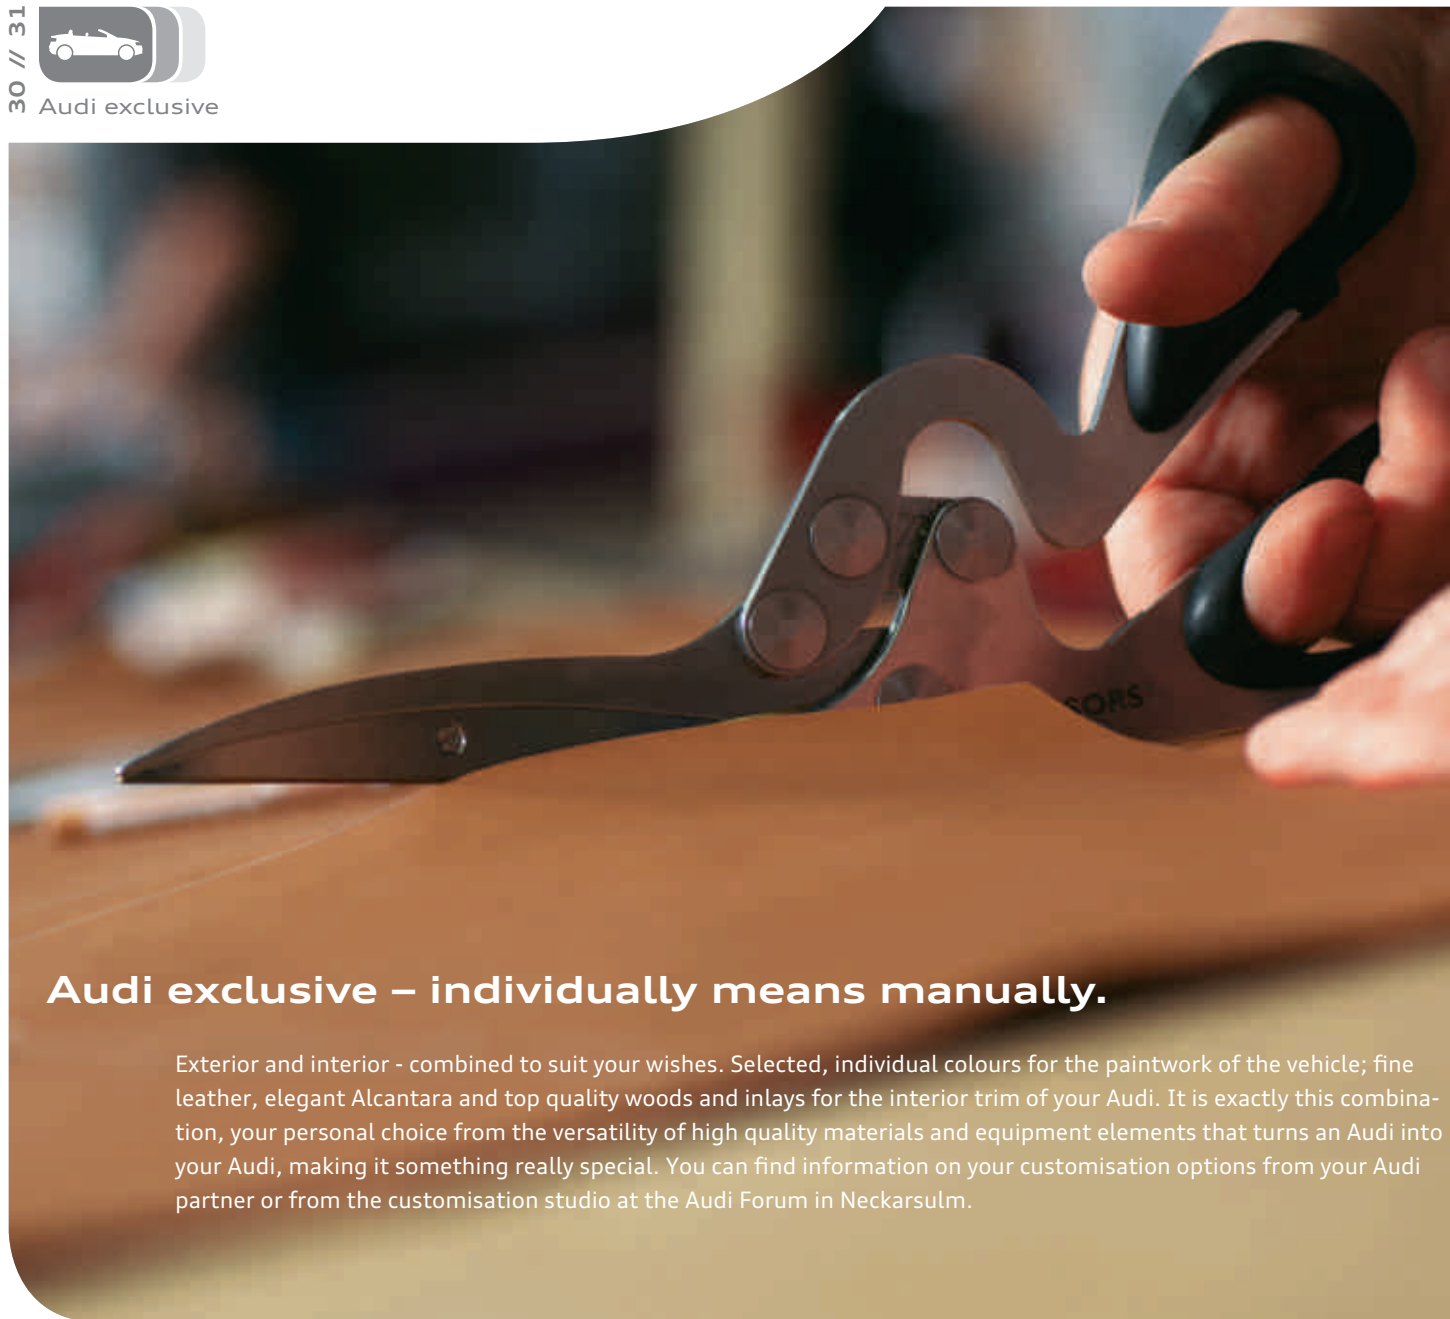

It has been a long day and a long journey.

And yet you still want more. The Audi A3 Cabriolet*.

*The fuel consumption and CO₂ emission figures can be found from page 52 onwards.

Audi exclusive – individually means manually.

Exterior and interior - combined to suit your wishes. Selected, individual colours for the paintwork of the vehicle; fine leather, elegant Alcantara and top quality woods and inlays for the interior trim of your Audi. It is exactly this combination, your personal choice from the versatility of high quality materials and equipment elements that turns an Audi into your Audi, making it something really special. You can find information on your customisation options from your Audi partner or from the customisation studio at the Audi Forum in Neckarsulm.

Audi exclusive Fine Nappa leather upholstery and trim in alabaster white with crimson red contrasting seams and Audi exclusive inlays and controls.

S line – redefining sportiness.

When you drive an Audi A3 Cabriolet* you are making a clear declaration of your belief in sporty motoring. The S line packages give you the opportunity to lend further emphasis to the athletic presence of your Audi A3 Cabriolet*, with equipment that underlines its dynamic body lines, gives its interior a perceptibly sporty identity and further optimises its driving behaviour even further. Decide on a plus in sportiness – the S line packages from quattro GmbH.

Distinctively sporty front bumpers.

cannot be fitted with snow chains, top speed
240 km/h

Audi exclusive cast aluminium wheels, 5-arm rotor design, titanium finish, high-gloss turned finish, size 7.5 J x 18 with 225/40 R 18 tyres.
From quattro GmbH

Wheel bolts, anti-theft, can only be loosened using adapter provided

Tyre repair kit, with 12 volt compressor and tyre sealant; permitted maximum speed 80 km/h

Spare wheel, space-saving

Tyre pressure monitoring system, monitors the tyre air pressure as set and entered into the system by the driver; if a tyre loses pressure, the tyre pressure monitoring system gives the driver a visual and audible warning. The system is not intended as an alternative to carrying out regular tyre pressure checks

Vehicle tool kit in the luggage compartment

Jack in the luggage compartment

¹For all vehicles with summer tyres and light-alloy rims, the winter wheels are fitted with full-width wheel covers.

Lights

Headlights, halogen headlights using free-form technology with clear glass cover, electric headlight range control and parking light function, daytime running lights

xenon plus, the headlights with durable gas discharge technology for dipped and main beam enable an intensive illumination of the road with excellent evenness and range, both close-up and in the distance, in a colour resembling daylight. The automatic-dynamic beam angle control prevents oncoming traffic from being dazzled; daytime running light band using LED technology with low energy consumption (including headlight cleaning system)

adaptive light, the dynamic cornering light identifies the course of the road from the movement of the steering wheel. The headlights swivel into the corner – depending on the turning angle – to provide variable illumination of the curve. The adaptive light is operational between speeds of approx. 10 km/h and 110 km/h. (Can only be ordered in conjunction with xenon plus)

Main beam assist, working within system limits, it automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the main beam is automatically switched on or off. (Only in conjunction with driver information system and interior mirror, automatically dimming, with light/rain sensor)

Interior lighting with delayed switch-off and contact switches on all doors; luggage space, driver and front-passenger lighting

Lighting package, includes door sill lighting, front footwell lighting, illuminated door handles and make-up mirrors, illuminated storage compartment in the centre console, 2 reading lights at front, ambient lighting on centre console and active door reflectors

Door reflectors, passive, when the door is open, safeguard against following traffic

Rear lights in red, LED lights form all-round light pattern, reversing lights in white, with rear fog lights and third high-mounted brake light

Fog lights (halogen), incorporated into the front apron. (Standard for Ambition)

Indicators with motorway indicator function, 3 indicating cycles activated by briefly operating the indicator stalk

adaptive brake light, brake light flashes during emergency stop to warn following traffic. Activates hazard warning light automatically when at a standstill

Headlight cleaning system, uses water and high pressure – for improved illuminating power and excellent visibility. (Standard with xenon plus)

Mirrors

Exterior mirrors with integral LED indicator; electrically adjustable; body-coloured housings; convex, flat or aspherical mirror glass

Exterior mirrors, optionally:

heated, including heated windscreen washer jets

heated and electrically folding

heated and automatically dimming. (Only in conjunction with automatically dimming interior mirror, with light/rain sensor)

heated, automatically dimming and electrically folding. (Only in conjunction with automatically dimming interior mirror, with light/rain sensor)

Interior mirror can be dimmed

Interior mirrors, optionally:

automatically dimming, with light/rain sensor, for controlling the automatic headlights and windscreen wipers, includes the coming home/leaving home function; delayed switching off/automatic switching on of main headlights, rear and licence plate lights when vehicle is switched off/opened

automatically dimming, with light/rain sensor and digital compass display, provides a digitised display of the current direction; the 8 points of the compass are shown as N, NE, E, SE, S, SW, W, NW shown in English

Make-up mirrors, illuminated, in driver and front-passenger sun visor. (Standard with lighting package)

Roof systems

Hood, semi-automatic, in Black, Red, Blue or Beige, made from insulated fabric, with innovative concertina folding action, fully retractable. Locked and unlocked manually

Acoustic hood, fully automatic, in Black, Red, Blue or Beige, optimised material thickness and binding techniques, combined with additional insulation has significantly improved interior noise levels; manual actuation is no longer required. The hood is opened and closed by unlocking and locking the door lock; hood can be actuated up to a vehicle speed of 30 km/h.

Wind deflector with new type of operating concept for easy attachment, reduces draughts in the passenger compartment. (Standard for Ambition)

Closing systems

Radio-operated remote control for the central locking, incorporated into the vehicle key, opens and locks the doors, windows, luggage compartment and tank filler flap at the touch of a button; variable rolling code; a telltale light in the interior indicates the locking status of the vehicle
Immobiliser, electronic , incorporated in engine control unit, automatically activated by the vehicle key
Garage door opener (HomeLink) , programmable radio-operated remote control, operating buttons incorporated in the interior lighting module; can be used to open and/or close garage doors and exterior gates, control of security and lighting systems is also possible; for further information, please contact your Audi partner
Anti-theft alarm system , with tow-away protection via angle of inclination sensors (can be switched off); includes interior monitoring system; horn independent of vehicle electrical system; for monitoring doors, bonnet and luggage compartment lid

Glazing

Heat-insulating glass , green tinted
Windscreen , made from heat-insulating glass and featuring a grey tinted strip along the top edge. (Standard with automatically dimming interior mirror with light/rain sensor)
Rear window , made of glass, heated, with timer switch
Windscreen cleaning system , 2-speeds, 4-speed adjustable intermittent wipe, flick-wipe function, automatic wash/wipe, with reversing wiper system and park position to increase wiper blade service life
Sun visors , can be folded and swivelled; on the driver and front-passenger sides with covered make-up mirror

Further exterior equipment

Trailer towing hitch , removable and lockable, sphere bar and ball head made from forged steel, the 13-pin socket can be swivelled out of sight behind the bumper apron; when removed, the towing device can be stored in the spare wheel well
Aluminium exterior finish , includes window capping strips and hood end strip in aluminium, rear side of roll-over bars in an aluminium-look
Audi exclusive black styling package , radiator grille frame in high-gloss Black, radiator grille, licence plate holder, front fog-light surrounds and trim in matt Black, body-coloured door handles. From quattro GmbH

Bumpers , plastic-coated, body-coloured
Audi Singleframe , one-piece decorative trim frame around the radiator grille, with bright-metal Audi rings in the centre
Exhaust tailpipes , visible, 2 tailpipes for 1.8 TFSI and 2.0 TFSI, single pipe for other petrol and diesel engines
Model name/logo on the luggage compartment lid, if required, vehicle can also be supplied without the model name on the rear

Seats/seating comfort

Electric lumbar supports in the front seats , electrically adjustable, with electrical vertical and horizontal adjustment
Front-passenger seat , height adjustable (standard for Ambition)
Convenience entry , enhanced front-seat folding function to facilitate easy access to the rear compartment
Rear seat back, folding , split, can be folded 50:50 or completely
Seat heating, front , heats the seat cushions and backrests, on leather seats also heats the side bolsters, several individually-adjustable settings for each seat; available for either the front seats or the front and rear seats
Heat guard , for the seat surfaces, seat bolsters and backrests of the front seats in Alcantara/Leather combination, Vienna leather and Fine Nappa leather. The special colour pigmentation of the leather counteracts intense heating. The infrared radiation in sunlight is reflected. The surface temperature can be reduced by up to 20 °C by the heat protection
Front centre armrest , with fold-up storage compartment, adjustable angle
Head restraints for all 4 seats, manually height-adjustable at front
ISOFIX child seat mounting for the front-passenger seat , with deactivation switch for front-passenger airbag
ISOFIX child seating mounting for the outer rear seats , standard bracket for the practical fastening of ISO standard child seats

Steering wheels/gear levers/controls

Steering wheel, 4-spoke design, with full-size airbag, manually adjustable for height and reach. (Standard for Attraction)

Leather steering wheel, 4-spoke design, with full-size airbag, manually adjustable for height and reach

Multifunction leather steering wheel, 4-spoke design, with full-size airbag, features same as for leather steering wheel; for operating the optional Audi radios and mobile phone fitting. (Optional exclusively for Attraction). If S tronic fitted, also includes shift paddles behind the steering wheel for changing gear. (Exclusively for Attraction)

Leather sports steering wheel, 3-spoke design, with full-size airbag, includes sports gear lever knob and hand-brake grip in leather for manual transmission versions (standard exclusively for Ambition). If S tronic fitted, also includes shift paddles behind the steering wheel for changing gear

Multifunction leather sports steering wheel, 3-spoke design, with full-size airbag, features same as for leather sports steering wheel; for operating the optional Audi radios and mobile phone fitting. (Optional exclusively for the Ambition). If S tronic fitted, also includes shift paddles behind the steering wheel for changing gear. (Exclusively for Ambition)

Leather sports steering wheel, 3-spoke design, flattened at the bottom, with full-size airbag, features same as for leather sports steering wheel. (Option for the Ambition)

Multifunction leather sports steering wheel, 3-spoke design, flattened at the bottom, with full-size airbag, features same as for leather sports steering wheel; for operating the optional Audi radio and mobile phone fitting, optionally available with shift paddles behind the steering wheel for changing gear on S tronic versions. (Option for the Ambition)

Customised steering wheel rim with Audi exclusive leather, available in all Audi exclusive colours; individual choice of seam colour – various Audi exclusive colours. From quattro GmbH

Gear lever knob with aluminium-look ring and gear lever gaiter

Audi exclusive wooden gear lever knob. From quattro GmbH

Audi exclusive gear lever knob in aluminium. From quattro GmbH

Controls customised with Audi exclusive leather, leather steering wheel rim, gear lever and gear lever gaiter; available in all Audi exclusive colours; seams can be selected individually in various Audi exclusive colours. From quattro GmbH

Climate control

Ventilation system and heating, 4-setting heater, 4 round, separately adjustable instrument panel vents in aluminium-look, defroster vents for windscreen and side windows, footwell vents front and rear

Manual air conditioning, CFC-free, cools and heats up the vehicle passenger compartment, includes 4 instrument panel air vents, footwell vents front and rear and defroster vents for the windscreen and side windows, features manual recirculation mode, combined pollutant and pollen filter, continuously-variable blower and manual air distribution

Deluxe automatic air conditioning, CFC-free, with sunlight-dependent control, separate pre-selectable control for driver and front-passenger sides; electronically regulates the air temperature, air flow rate and air distribution; automatic recirculation mode with passenger-compartment air filtering by means of air quality sensor, pollutant and pollen filter, key-coded settings and special cabriolet control

Luggage securing and storage systems

Storage compartments, under the instrument panel, in the door/side panels, in the centre console and under the front-passenger seat, folding design

Glove compartment, on the front-passenger side, large-volume, with light, lockable

Storage package, includes storage nets on the backs of the front-seat backrests, storage compartment under the driver's seat, map/CD case compartment in glove compartment, storage net in front area/centre console, combined net for attaching to luggage compartment floor or to the backrest rear panel, 12 volt socket and second luggage compartment light

Bag hooks, on the left and right-hand sides of the luggage compartment

Lashing points, 4 in the luggage compartment, for attaching items of luggage and objects, attachment points for the combined net (available as optional equipment)

Reversible mat for the luggage compartment, velour on one side, rubber on the other, for covering the entire luggage compartment and the rear bumper

Removable ski-/snowboard bag, for the practical transportation of long objects, e.g. up to 4 pairs of skis or 2 snowboards

Further interior equipment

Footwell carpeting , in velour, to match interior colour
Floor mats front , in velour to match carpet colour
Floor mats rear , in velour to match carpet colour
Door sill trims with aluminium inlay on the door sills. (Standard exclusively for Ambition)
Electric windows , front and rear with safety system to limit closing force, convenience opening/closing via central locking, one-touch opening/closing function
Door trim with cloth-covered inner panels, integral armrests
Centre console with storage compartment which can also be used as a drinks holder when cover is open
Cigarette lighter and ashtray in the front centre console
12 volt socket at front , with storage compartment in the centre console

MMI® and navigation systems

Navigation system with MMI® control logic , includes navigation CD, 6-inch monochrome display in the centre console for entering destination and route description, dynamic route guidance (where available), radio with twin tuner, CD player for navigation-CD, audio or MP3 CDs, aerial diversity, arrow display in driver information system; country navigation CD includes main transport links for Europe (where digitised), includes AUX-IN connection for connecting audio end devices. (Only in conjunction with driver information system and deluxe automatic air conditioning)
Navigation system plus with MMI® control logic , includes 2 navigation DVDs, 6.5-inch TFT colour display (800 x 480 pixel) with 3D map display, dynamic route guidance (where available), radio with twin tuner, DVD drive for navigation DVD, audio or MP3 CDs (cannot be played when navigation system is being used), 2 integral MMC/SDHC card readers for MP3 (up to 32 GB), AUX-IN connection, arrow display in driver information system, display of visual parking information (only when front and rear parking system is ordered), aerial and 8 loudspeakers including centre speaker and bass reflex speaker with integrated amplifier, total output 140 watts, connection with Audi music interface possible
Navigation data (DVD) , for navigation system plus, contains navigation data for the following countries (where digitised): Andorra, Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, the Netherlands, Norway, Poland, Portugal, San Marino, Slovakia, Slovenia, Spain, Sweden, Switzerland, UK, the Vatican City
Driver information system with display for auto-check control, radio frequency (Audi radios only), 2 adjustable speed warning thresholds, digital speed display, outside temperature, trip computer, door and tailgate monitors. The integrated efficiency programme supports you with consumption figure overviews, a display detailing additional consumers, an enlarged gearshift display and fuel-saving tips to help you adopt an economical driving style. (Standard for Ambition)

Ambient temperature display, at temperatures below +5 °C the ambient temperature display also displays an ice crystal symbol to warn against possible black ice

Radio and TV systems

Radio fittings , for Audi radios or other popular car radios
chorus radio , with single-CD drive, 12-station memory, FM (VHF) and AM (MW) reception, soft-key control concept and three-line graphic display, CAN-bus networking, speed-dependent volume control, phase diversity, 4 passive loudspeakers at the front, total output 40 watts
concert radio , same as chorus radio, but with additional MP3 capability, 8 loudspeakers, including centre speaker and bass reflex box with integrated amplifier, total output 140 watts; includes AUX-IN connection for connecting external music media
symphony radio , same as concert radio, but with additional TP memo function, with integral CD changer for 6 CDs (instead of internal single-CD player), MP3-capable, total output 140 watts; includes AUX-IN connection for connecting external music media
BOSE Sound System , 8 high-performance loudspeakers, 6-channel amplifier with a total output of 222 watts, dynamic driving noise compensation and BOSE signal processing, tuned to the acoustics of the vehicle; can be combined with the concert and symphony Audi radios and the navigation systems with MMI control logic
CD-changer , in the glove compartment, for 6 CDs, vibration-proof, easily accessible, without magazine; each CD can be loaded and changed individually
Audi music interface , for connecting Apple iPods from 4th generation onwards., Apple iPhone (music functionality), USB storage media and other MP3 players. The Audi music interface is located in the glove compartment, operated via the navigation system plus or a multifunction steering wheel. Note: may only be ordered in conjunction with navigation system plus and can only be used with a special adapter cable (Audi Genuine Accessory). If Audi music interface is ordered the AUX-IN connection is omitted
Adapter cable set for Audi music interface , consisting of 2 connection cables for the connection of iPod/iPhone or data media/media player with USB connection (Type A); further adapter cables available from Audi Genuine Accessories
Aerial system , aerials integrated into the glass
Audi exclusive iPod fittings , console in glove compartment; limited operation of iPod via the radio or multifunction leather steering wheel; the iPod is charged in the console when in use. Please ask your Audi partner for information on compatible iPod variants. Not in conjunction with navigation plus. From quattro GmbH
Audi exclusive USB port , console in glove compartment for USB sticks or MP3 players with USB extension cable; limited function via radio or multifunction leather steering wheel. Not in conjunction with navigation plus. From quattro GmbH

Telephone and communication

Bluetooth interface, Bluetooth-capable mobile telephones can be connected to the vehicle via the interface. Hands-free calls are possible in the vehicle via the microphone. (Can only be ordered in conjunction with a multifunction steering wheel and driver information system)

Mobile phone fitting (Bluetooth), comprises a hands-free facility and voice control for telephone functions as well as a fitting for optional mobile-specific charger; operation via a multifunction leather steering wheel; please contact your Audi partner for adapters and information about which mobile phones are compatible

Assistance systems

Hill start assist, after the foot brake has been pressed for a lengthy period of time while the vehicle is stationary, the brake pressure that has been built up is maintained for a short while after the brake is released; this automatic braking action makes hill-starts much easier and more comfortable. (Standard for S tronic)

Parking system, rear, assists with parking by indicating acoustically how far away the vehicle is from an obstacle; measurement is done by ultrasonic sensors concealed in the bumper

Parking system, front and rear, assists with parking by indicating acoustically how far away the vehicle is from an obstacle; measurement is done by ultrasonic sensors concealed in the bumper. (Optical representation only in conjunction with navigation system plus)

Park assistance system, uses ultrasonic sensors to search for parking spaces by the roadside, calculates the ideal parking path and completes the steering process virtually automatically. Whilst the vehicle takes care of the steering, all the driver has to do is accelerate and brake; includes hill-start assist and driver information system. (Optical representation only in conjunction with navigation system plus)

Cruise control system, at speeds of 30 km/h and above, the system keeps the set speed constant, provided that engine power and engine braking effect permit it; operated via separate steering column stalk, set speed displayed in driver information system. (Only available in conjunction with driver information system)

Chassis/brakes

Dynamic suspension, at the front featuring McPherson strut suspension with bottom wishbones, aluminium subframe, tubular anti-roll bar; at the rear featuring four-link suspension with separate spring/damper layout, subframe

Sports suspension, body lowered by approx. 15 mm, with stiffer spring and damper tuning for more direct contact with the road and sporty handling. (Standard for Ambition, can also be ordered with standard suspension)

Braking system with anti-lock braking system (ABS) and electronic brake force distribution (EBD), plus hydraulic brake assist, with dual rate brake servo (Dual Rate), disc brakes front and rear, ventilated at front

Technology/safety

Body, galvanised (fully galvanised in areas at risk from corrosion), unitary construction, welded to the floor pan, front and rear areas with defined crumple zones. (12 year warranty against rust perforation)

Side impact protection, consisting of bend-resistant, high-strength door impact bar systems and reinforced body side structure, particularly in the B-pillars and sills

Audi exclusive leather-trimmed rollover bars, leather trim matches seat covers; all Audi exclusive and standard colours are available. From quattro GmbH

Full-size airbags for driver and front passenger; head/thorax side airbags at front incorporated into the seat backrests

Integral head restraint system, in the event of a rear-end collision the shape of the seat restrains the upper body and supports the head. This increases safety and reduces the danger of whiplash

Instrument cluster, with controllable lighting, coolant temperature display, fuel gauge, rev counter with digital clock, speedometer with disproportionate display and electronic odometer/trip odometer, warning and indicator lights, maintenance interval display

Safety steering column, supplements the safety potential of the seat belts and airbags

Seat belts, 3-point inertia reel seat belts for all seats, with pyrotechnic belt tensioners; belt force limiters for all seats

Seat belt warning, for driver's seat, an acoustic and visual warning signal reminds you to fasten your seat belt

Warning and indicator lamps including for airbag, ABS, ESP/ASR, handbrake on, EDL electronics, alternator, lights, main beam, indicators, braking system, engine oil pressure, tailgate closed, engine electrics, glow plug system (TDI)

Warning triangle stored in the luggage compartment under the loading sill cover

First-aid kit in the storage compartment under the front passenger seat

Traction control (ASR), reduces engine power to prevent the drive wheels from spinning, resulting in more stability and improved traction

Electronic differential lock (EDL), on surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on the surface that is too slippery, thereby ensuring smooth, powerful progress

Electronic Stabilization Programme (ESP), can be deactivated in 2 stages, with hydraulic brake assist: ESP ensures greater stability in hazardous situations through targeted braking of individual wheels and intervention in the engine management system and helps to stabilise the vehicle by changing the steering torque

ESP with electronic cross-axle lock , the electronic cross-axle lock is integrated in the ESP for models with front wheel drive. It distributes the drive torques by means of targeted brake intervention depending on the driving situation. When cornering, the differential lock actively intervenes before under-steering is even perceptible. This provides improved traction and dynamics in curves and precise driving. In addition, agility is improved during steering while driving safety is simultaneously increased
Power steering , electromechanical, speed-sensitive power steering, with active reset assistance, automatic straight line running correction system, e.g. in side winds or on a cambered road; energy-saving operation, damping of road-induced interference, track-stabilising scrub radius
Manual gearbox , 5 or 6-speed, all-synchromesh, with hydraulically-actuated single-plate dry clutch with asbestos-free linings, twin-mass flywheel
S tronic , the 6 or 7-speed dual clutch transmission facilitates shorter gearshift times and gearshifting without any perceptible interruption in the power flow; can be operated via shift paddles behind the steering wheel, the gear lever knob or in automatic mode; includes hill-start assist
Front-wheel drive , electronic differential lock (EDL) through intervention of the braking system on all driven wheels, traction control (ASR), Electronic Stabilization Programme (ESP) with brake assist
Recuperation , increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is then used to assist the generator during subsequent acceleration, saving up to 3% fuel. (For 1.8 TFSI and 1.6 TDI)
Start-stop system , reduces fuel consumption and CO ₂ emissions by switching off the engine when standing, e.g. at traffic lights. The start process is initiated as soon as the clutch (manual gearbox) is pressed or the footbrake is released (S tronic) for a perfect getaway. Can be deactivated via a switch at any time. (Standard for 1.2 TFSI, 1.6 TDI and 2.0 TDI)

Trim lines

A3 Cabriolet Attraction

Inlays , Pearlescent finish, in door trim and centre console
Steering wheel , padded, in 4-spoke design
Seat covers in Frequency cloth
Steel wheels, including full-width wheel cover , size 6.5 J x 16 with 205/55 R 16 tyres

A3 Cabriolet Ambition

Cast aluminium wheels, 5-arm kinetic design , size 7.5 J x 17 with 225/45 R 17 tyres
Front-passenger seat height adjustable
Inlays , Micrometallic platinum, in door trim and centre console
Door sill trims with aluminium inlay on the door sills
Driver information system including digital speed display and trip computer with efficiency programme
Seat covers in Dynamic cloth
Fog lights (halogen), incorporated in the front apron
Sports suspension (can also be ordered with standard suspension)
Sports leather steering wheel, 3-spoke design , includes gear lever knob and handbrake grip in leather
Sports seats, front
Wind deflector with new type of operating concept for easy installation, reduces draughts in the passenger compartment

Notes

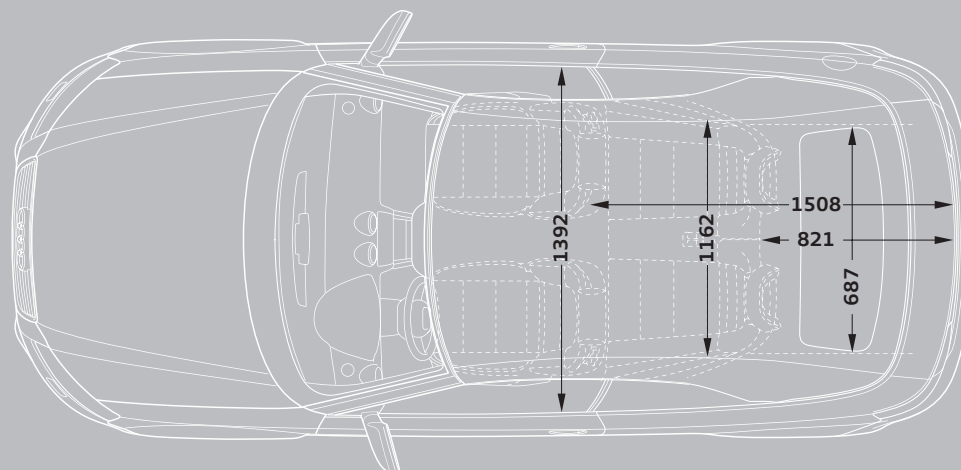

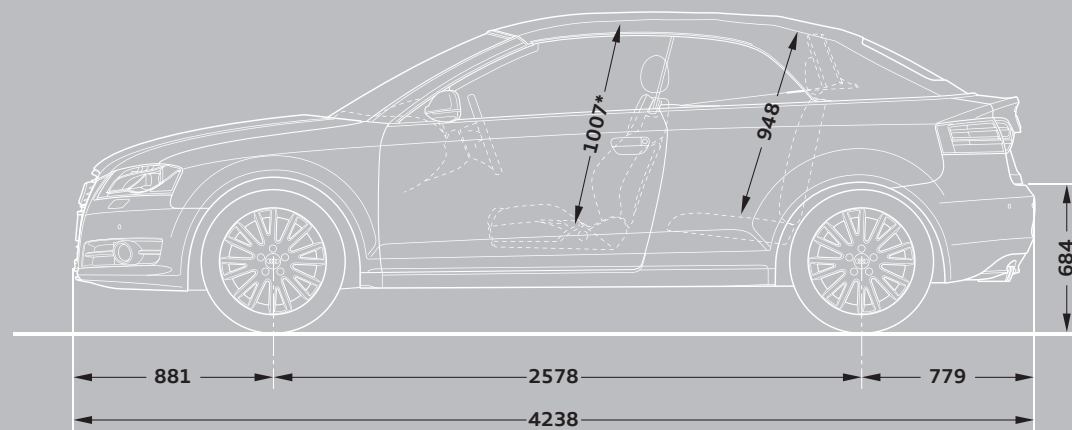

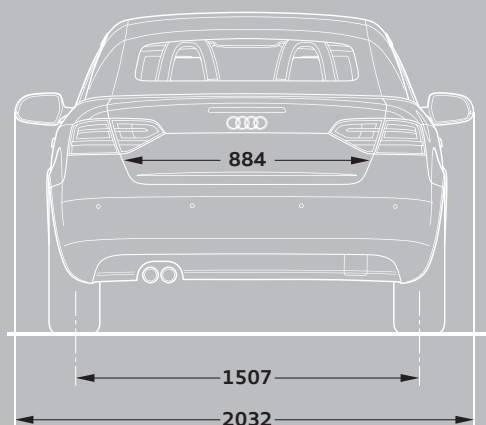

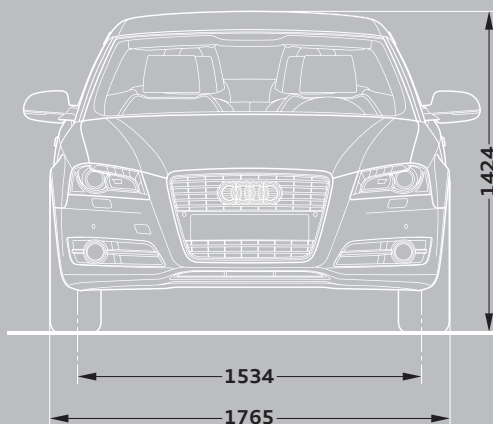

- ¹ The figure stated was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).
- ² For the Ambition: cast aluminium wheels 7.5 J x 17 with 225/45 R 17 tyres.
- ³ Weight of car, unladen, with driver (68 kg), luggage (7 kg) and fuel tank filled to 90%, calculated in accordance with the current version of Directive 92/21/EEC. Optional equipment may increase the car’s unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- ⁴ The engine's power output always goes down with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle).
- ⁵ A vehicle's fuel consumption and CO₂ emissions do not just depend on how efficiently the vehicle uses the fuel but are also affected by driver behaviour and other non-technical factors. CO₂ is the greenhouse gas primarily responsible for global warming.
- ⁶ We recommend using sulphur-free Super unleaded (95 RON) in accordance with DIN EN 228. If this is not available, use “sulphur-free regular unleaded RON 91” in accordance with DIN EN 228; power output will be slightly reduced.
- ⁷ We recommend using sulphur-free diesel in accordance with DIN EN 590. If this is not available, use diesel in accordance with DIN EN 590.
- ⁸ The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

Important note

Inspections are due as shown by the service display.

Audi A3 Cabriolet

Dimensions in millimetres.

Dimensions were measured with vehicle at unladen weight.

Luggage load area capacity 260 l; with seat backrests folded down 674 l (measured by the VDA standard test method using 200 x 100 x 50 mm blocks).

Turning circle approx. 10.7 m. *Maximum headroom.

Efficiency: standard in every Audi.

Vorsprung durch Technik is the claim to which the Audi brand is committed. This includes giving careful consideration time and again to each droplet of fuel. For many years, Audi has been translating this claim into tangible reality on all its models – and as a developer of numerous innovations is having a lasting influence on

efficiency standards in automotive engineering. Whether with the TDI, FSI® and TFSI® engine concepts, with transmission technologies or with the Audi Space Frame (ASF). To achieve the ongoing improvements in energy consumption, a number of intelligent efficiency measures – specially tailored to each vehicle –

are combined. Efficiency with a methodical approach – individual and standard. A commitment which is already leading to convincing results: Audi already has many models in its current range that emit less than 140 g CO₂/km. An effective way of reducing emissions. And just as impressive as the fact that a

large proportion of Audi vehicles already meet the strict EU 5 emissions standard. All this demonstrates the know-how of Audi – and is what drives us on every day to harmonise sportiness and efficiency in the future.

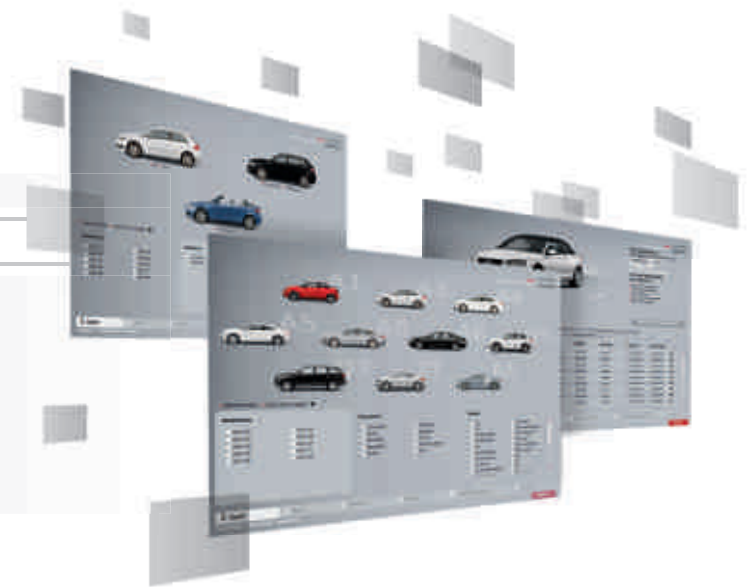

At Audi, you get much more than an Audi.

Anyone who chooses an Audi chooses a brand that offers its customers more. More individuality. More exclusivity. And more fascination.

Audi configurator

Create your own personal Audi using the Audi configurator. All current models, engines, colours and equipment options are available for you to choose from.
